

PENINSULA

Kamchatka.

Kamchatka is a land of volcanoes.

- There are about 160 dormant and 29 active volcanoes.

Also Kamchatka is a land of hot and cold springs.

- About 150 hot springs are medicinal springs.

Travelling through Kamchatka

- you can observe brown bear, wolf, foxes and many other animals.

**The nature of Kamchatka is unique
and there are**

- quite few place like in the world.

THE END.

Thanks.
